

SWD-Pad

Surface Preparation Pad

by **GLMESH**

STRIP | WET | DRY

- Versatile pad strips either wet or dry
- Sets up floor for superior recoating surface
- Chemical free, no stripping solution required – just use water if using wet
- Gives even wear through the pad via evenly coated nylon fibres with resin and aluminium oxide grit
- Usable on most hard floors including wood, vinyl, terrazzo, marble, concrete etc.
- Great for removing lines in car parks or on basketball courts

The Superior Surface Preparation Pad

The Glomesh SWD-Pad is an extremely versatile, superior performing stripping pad that creates beautifully prepared surfaces ready for finish applications. The pads can be used wet or dry and there is no need for harsh chemicals, simply use with water or a neutral cleaner to get great results. Featuring an open web-design, the pad stops surface loading and removes one to three coats of worn floor finish on regular speed machines, autoscrubbers or oscillators. The SWD-Pad provides outstanding cleaning results on those really difficult jobs like line removal in car parks or deep-seated staining without any harsh scratching that may be evident from other types of pads or meshes.
